### *Motorcycle and Car Rentals*

- There is an abundance of rental places all over the island.
- There are a lot of **Bike Rental** places all over the island and the prices are all around the same price in each place. When I rent, a bike I go to "Ilias Rental". He has been good to me over the years. If you rent from him, let him know you are staying in Lucy's house, if you catch him in a good mood, he may give you a break on the price, if not, you will pay full!
- As for **Car Rentals** they, as the bikes, are all over the place, just shop around as prices tend to vary a bit from place to place. Local shops are usually cheaper than the established agencies like Hertz. However if you damage the car you will have better treatment from established agencies than local, so pick your evil!
